SAP Ariba Can Help You With...

Enhanced collaboration and the ability to manage your commercial relationship with us via one single digital platform

The ability to create, own and manage your digital Supplier Profile - enabling electronic trade with us and potentially other buyer organisations that are Ariba Network enabled

Greater **visibility and transparency of the status of business transactions** (e.g. Supplier Communications, Notifications), **sourcing events and opportunities**

Greater visibility of our **end-to-end** procurement process

Cost Implications

In order for a Supplier to conduct business with us via the 3 new SAP Ariba Modules, they will need the following :

A device that can access the internet via a browser (Desktop, Laptop, Tablet or Smart Phone)

Suppliers incur no costs to:

create their supplier profile

create a new SAP Ariba Network Standard Account

participate in any sourcing event (including Registration and Qualification Questionnaires)

New Supplier Registration

If you are a new supplier who wants to conduct business with us, follow the below steps:

- <http://satorp.supplier.mn2.ariba.com/ad/selfRegistration>
- Enter the required data and click submit

The screenshot shows a web interface for SAP. At the top left is the SAP logo, and at the top right is a 'GU' button. The main heading is 'Supplier self-registration request form'. Below this, there are six input fields with labels: 'Supplier Name *', 'Supplier Contact First Name *', 'Supplier Contact Last Name *', 'Supplier Email *', 'Custom Name *', and 'Italian VAT Number if available'. At the bottom right, there are two buttons: 'Submit' and 'Cancel'.

Invitation: Register to become a supplier with SATORP - TEST

Gaurav Ail <s4system-prodksa+satorp-T.Doc36550616@smtp.mn2.ariba.com>
To ● SHANTI, Abdulraouf

Register as a supplier with SATORP - TEST

Hello!

Gaurav Ail has invited you to register to become a supplier with SATORP - TEST. Start by creating an account with Ariba Network. It's free.

SATORP - TEST uses Ariba Network to manage its sourcing and procurement activities and to collaborate with suppliers. If Damons RECRUITMENT SOLUTIONSdef already has an account with Ariba Network, sign in with your username and password.

[Click Here](#) to create account now

You are receiving this email because your customer, SATORP - TEST, has identified you as the appropriate contact for this correspondence. If you are not the correct contact, please contact SATORP - TEST.

Click Sign up if you don't have an Ariba Network Account, or Log In if you already have an Ariba Network Account

The screenshot shows the SAP Ariba Proposals & Questionnaires interface. The main content area displays a welcome message for John Smith and a section for creating a new supplier account. Two buttons, 'Sign up' and 'Log in', are highlighted with red boxes. The 'Sign up' button is located under the heading 'Create an SAP Ariba supplier account and manage your response to procurement activities required by Downstream Deployment EMEA - TEST.' The 'Log in' button is located under the heading 'Already have an account?'. The right sidebar contains a search bar and a list of help center articles, including 'Error: The username and password entered has already merged to another Ariba Sourcing user account' and 'Error: The username and password pair you entered was not found'. At the bottom of the page, there are links for 'Documentation' and 'Support'.

New Supplier Registration

Enter Products and Services and Ship to Locations. (enter at least one and then you can complete your profile further after registration)

Accept terms and conditions and click 'create account and continue'

Product and Service Categories:

Ship-to or Service Locations:

Tax ID: Enter your nine-digit Company Tax ID number.

DUNS Number: Enter the nine-digit number issued by Dun & Bradstreet. By default, DUNS number is appended with "T" in test accounts. ⓘ

Arba will make your company profile, which includes the basic company information, available for new business opportunities to other companies. If you want to hide your company profile, you can do so anytime by editing the profile visibility settings on the Company Profile page after you have finished your registration.

By clicking the Create account and continue button, you expressly acknowledge and give consent to Arba for your data entered into this system to be transferred outside the European Union, Russian Federation or other jurisdiction where you are located to Arba and the computer systems on which the Arba services are hosted (located in various data centers globally), in accordance with the Arba Privacy Statement, the Terms of Use, and applicable law.

You have the right to access and modify your personal data from within the application, by contacting the Arba administrator within your organization or Arba, Inc. This consent shall be in effect from the moment it has been granted and may be revoked by prior written notice to Arba. If you are a Russian citizen residing within the Russian Federation, you also expressly confirm that any of your personal data entered or modified in the system has previously been captured by your organization in a separate data repository residing within the Russian Federation.

I have read and agree to the Terms of Use

Account Configuration – Creating Users and Roles

In SAP Ariba, **administrators** and **users** have different roles:

- **Administrators** have the following responsibilities:
 - Account configuration & management – registering new accounts in the SAP Ariba Network
 - Handle account login issues and act as primary contact for their company's Ariba Network users
 - Create new roles in Ariba system
 - **The individual that creates / registers a new Ariba Network account automatically becomes the account administrator. All notifications will be sent to the email address that they capture for that account.**
- A **user** has the following attributes in SAP Ariba :
 - Users can have different roles concerning procurement and supply chain processes
 - Users can update their profile in Ariba
 - Configuring notifications and workflows based on roles and responsibilities that the administrator assigns to them

الأفراد
People

الشراكة
Partnership

الإعتزاز

المهنية
Professionalism

Account Configuration - Creating Users and Roles

1. **Click** on the Users tab under the **Company Settings** options. The Users page will load.
2. **Click** on the **Create Role** button in the Manage Roles section and type in the Name and a Description for the Role.
3. **Add Permissions to the Role** that correspond to the user's actual job responsibilities by checking the proper boxes and click save to create the role.

Note: For Proposal and contract access role, Buyers must approve the request

The screenshot illustrates the 'Manage Users' and 'Manage User Roles' sections of the Satorp system. The 'Manage Users' section includes a table with the following data:

Username	Email Address	First Name	Last Name	Ariba Discovery Contact
rebecca.novotny@sap.com	rebecca.novotny@sap.com	Rebecca	Novotny	No

The 'Manage User Roles' section includes a table with the following data:

Name	Actions
Administrator	Details
All Access	Details Edit Delete

4. **To Create** a User Click on Create User button and add all relevant information about the user including name and contact info.
5. **Select** a role in the Role Assignment section and Click on Done. You can add up to 250 users to your Ariba Network account

Account Configuration – Completing the Public Profile

You can complete your Ariba Cloud public company profile. The information you update in this section can be seen by other buyers on the Ariba Network. The information you completed in the previous section (Supplier Registration) can only be viewed by the customer that requested the information from you.

1. Select Company Profile from the Company Settings dropdown menu.
2. Complete all suggested fields within the tabs to best represent your company.
3. Fill the Public Profile Completeness meter to 100% by filling in the information listed below it.

Note: The more complete a profile, the higher the likelihood of increasing business with existing and prospective customers.

The screenshot displays the Ariba Cloud interface for configuring a public company profile. At the top, a 'Company Settings' dropdown menu is open, showing options for 'SMO Supplier 1', 'Company Profile', 'Service Subscriptions', and 'Account Settings'. The 'Company Profile' option is selected. Below the dropdown, the main interface shows the 'Overview' tab with various fields for company information. The 'Public Profile Completeness' meter on the right indicates the progress of profile completion. The 'Address' section is partially filled with details for '21 Jump Street, Cleveland, OH 44114, United States (USA)'.

Account Configuration - Configure Your Email Notifications

1. Click on Notifications under Company Settings.
2. Network Notifications can be accessed from here as well, or you may switch to the Network tab when in Notifications.
3. You can enter up to 3 email addresses per notification type. You must separate each address with a comma but include NO spaces between the emails.

The Network Notifications section indicates which system notifications you would like to receive and allows you to designate which email addresses you would like to send them to.

The screenshot shows the 'Account Settings' page with the 'Notifications' tab selected. A dropdown menu is open, showing 'Notifications' selected (1). The 'Network' tab is active (2). The 'Electronic Order Routing' section has a table with notification types and checkboxes. The 'To email addresses' field is populated with 'junk@phoenix.ariba.com' (3).

Type	Send notifications when...
Order	<input checked="" type="checkbox"/> Send a notification when orders are undelivered
Purchase Order Inquiry	<input type="checkbox"/> Send a notification when a new collaboration request is received.
Time Sheet	<input type="checkbox"/> Send a notification when purchase order inquiries are received.
Pending Queue	<input type="checkbox"/> Send a notification when purchase order inquiries are received.
	<input type="checkbox"/> Send a notification when time sheets are undelivered.
	<input type="checkbox"/> Send a notification when items delivered through pending queue are not acknowledged.

Note: If you are out of the office, make sure to include in your auto-reply messages one of the following phrases. This will prevent Ariba Network from failing orders sent to mailboxes responding using an auto-reply feature: *Out of office, OOTO, On vacation, on holiday, out of town, away from the office, away until, out of the country, an off site meeting.*

When Ariba Network detects an auto-reply containing one of these phrases, it indicates that it received the auto-reply in the order history log and does not fail the order.
